

# Preparing for Delivery Checklist

**Important:** All greenhouses are delivered fully assembled to your home.

Order Greenhouse

Sign Sales Order

Make sure you  all the flowers!

## PREPARING THE SPACE

Provide a clean and clear path to your pad that is free of limbs and debris.

Trim tree limbs at least one foot wider than the width of the greenhouse.

*14' overhead clearance needed when greenhouse is on the trailer*

*12' overhead clearance needed when greenhouse is attached to mule.*

Any access gates need to be one foot wider than the width of the greenhouse.

Any fencing that hinders access to the delivery site needs to be temporarily removed by the customer prior to delivery.

Ideally the delivery site should have six feet of clearance around the outside of the greenhouse so the driver can access and remove mule as needed.

## PREPARING THE FOUNDATION

Keep pads as close to the ground level as possible. Our drivers do not have forklifts.

If framing your pad, pad perimeters need to be no higher than 6" above ground level if possible.

We recommend a limestone base or crusher run base material. These two types of materials pack well. **Do not use pea gravel or river rock.**

Have CAP blocks on site when using a gravel pad. Blocks are needed on any setup other than a concrete pad. **Refer to the CAP block reference list below.**

CAP blocks can typically be purchased at Lowe's or Home Depot. The blocks may not be used but it is better to have too many than not enough. Each delivery is different depending on how level the site is.

### CAP BLOCK REFERENCE LIST

8X8	(4)	4X8X16 &	(4)	2X8X16	12X12	(12)	4X8X16 &	(12)	2X8X16
8X12	(6)	4X8X16 &	(6)	2X8X16	12X16	(16)	4X8X16 &	(16)	2X8X16
8X16	(8)	4X8X16 &	(8)	2X8X16	12X20	(20)	4X8X16 &	(20)	2X8X16
8X20	(10)	4X8X16 &	(10)	2X8X16	12X24	(24)	4X8X16 &	(24)	2X8X16
					12X28	(28)	4X8X16 &	(28)	2X8X16
					12X32	(32)	4X8X16 &	(32)	2X8X16
